If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/21/2009 has been entered.

Response to Arguments

Applicant's arguments and amendments filed 5/21/2009 have been fully considered and are persuasive. The rejection of claims 1-15 under 35 USC 103 has been withdrawn. The rejection of claim 4 under 35 USC 112 is withdrawn. The objection to claim 14 is also withdrawn.

Claims 1-15 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Helene Raybaud on 8/13/2009.

The application has been amended as follows:

Art Unit: 3663

Claim 1 has been amended to delete “and using the overall measure of similarity to identify the microseismic events.” from the claim. The claim now ends with "events acquired at the second seismic receiver."

Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art teaches using first and receivers in boreholes to acquire traces, and determining measures of similarity in the traces by correlations of the data. Other pieces of prior art related to earthquake data teach that doublets can be identified in seismic acquired at various surface stations as a result of earthquake activity. The prior art teaches that doublets can be identified as similar traces in traces at related seismic stations. However, the closest prior art does not teach identifying a potential doublet in a first seismic trace acquired at a first receiver in a borehole and using this first potential doublet to identify a corresponding potential doublet in a second seismic trace acquired at a second receiver in the borehole, and then determining an overall measure of similarity for the pair of microseismic events at the first and second receivers as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
